

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

APPENDIX V

STATISTICAL TABLES

SUPPLEMENTARY TO REPORT OF GENERAL WAGE INVESTIGATION

STATISTICAL TABLES

The following statistical appendix is in the nature of a supplement to the main portion of the wage report, and contains detailed statistics with reference to the industries investigated by the Commission.

It presents for convenient reference, a series of tables showing in detail the distribution by localities and divisions of the industries investigated, and affords a basis for direct comparison.

The subjects dealt with in the tables are set forth in the following list:

<i>Table Series</i>	<i>Subject</i>
I.	Number of employees according to age groups, by locality and sex.
II.	Number and per cent. of all employees according to nativity, by locality.
III.	Number of employees earning specified weekly rates, by locality and sex.
IV.	Number of employees classified according to actual weekly earnings, by locality and sex.
V.	Number of employees earning specified weekly rates, by age groups and sex.
VI.	Number of employees classified according to actual weekly earnings, by age groups and sex.
VII.	Number and per cent. of employees, by sex, according to occupation and nativity.
VIII.	Number and per cent. of employees earning specified weekly rates according to occupation and sex.
IX.	Number and per cent. of employees classified according to actual weekly earnings by occupation and sex.
X.	Number and per cent. of employees classified according to actual weekly earnings, by conjugal condition and sex.
XI.	Number and per cent. of employees classified according to actual weekly earnings, by nativity and sex.
XII.	Number of employees, for each sex, classified according to actual weekly earnings, by the number of years in the trade.
XIII.	Number of employees, for each sex, classified according to actual weekly earnings, by the number of years with the firm.
XIV.	Number of employees, for each sex, in the main occupations of specified departments in department stores, earning specified weekly rates.

- XV. Number of employees earning specified weekly rates, by department and sex, in neighborhood and five and ten cent stores.
- XVI. Number of employees classified according to actual weekly earnings, by department and sex, in neighborhood and five and ten cent stores.
- XVII. Number of employees classified by age groups, by department and sex.
- XVIII. Number and per cent. of all employees in each department according to actual weekly earnings — shirts, confectionery and paper box industries.
- XIX. Number and per cent. of employees according to average actual weekly earnings, by occupation and sex.
- XX. Number and per cent. of all employees working 43 weeks or more, according to actual annual earnings, by occupation and sex.

KEY TO CODE NUMBERS USED IN THE INDEX OF STATISTICAL TABLES

For convenience in reference all tables in this section are numbered consecutively from 1 to 365 in arabic numerals.

Roman numerals are used to show the various table forms. Correlations of the same items have in every case the same Roman numerals. Thus, Table V is, for all industries and all localities, a table showing the distribution according to weekly rates by age groups.

The other symbols used are given in the following classification:

A. Mercantile establishments.

1. Department stores.

- a. Stock and sales.
- b. Office.
- c. Shipping and delivery.
- d. Manufacturing.
- e. Plant.

2. Neighborhood stores.

- a, b, c, d, and e the same as above.

3. Five and ten-cent stores.

- a, b, c, d, and e the same as above.

B. Men's shirt industry.

- a. Factory workers.
- b. Office force.
- c. Shipping and delivery.
- e. Plant.

(For New York City only

- 1. Negligee shirts.
- 2. Working shirts).

C. Paper box industry.

- a, b, c, and e as above.

D. Confectionery industry.

- a, b, c, and e as above.

(For New York City only

- 1. Wholesale factories.
- 2. Wholesale factories having a retail outlet).
